Project Name	FitBuddy AI Fitness Plan Generator Gemini Models

Persona

Name	Role / User Type
Fitness User	A person who wants a simple, personalized fitness plan

Customer / User Empathy Map

SAYS • I want a fitness plan that matches my goals. • I need a workout routine that is easy to follow. • I want guidance on which exercises I should do.	THINKS • Which exercises are suitable for my fitness level? • Can I get a plan that fits my available time and equipment? • I need a plan that can change as I make progress.
DOES • Looks for workout plans and fitness guidance. • Tries different exercises and routines. • Tracks or considers progress and adjusts the routine.	FEELS • Confused when choosing suitable exercises. • Motivated when the plan is simple and personalized. • More confident when clear guidance is available.

Empathy Map Insight

The user needs a simple and personalized fitness experience that provides suitable workout guidance, fits their personal circumstances, and can adapt as their progress changes. This insight supports the development of FitBuddy as a customer-centric AI fitness planning solution.
