Demonstration of Proposed Features

This document records proposed features and provides a checklist for confirming implementation and demonstration. The statuses below are an illustrative draft only; verify them against the actual project before submission.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Profile & Goal Input	Collect user details such as fitness goal, experience level, and preferences.	Partial	No	Confirm required fields and input validation during the demo.
2	AI Workout Plan Generation	Generate a personalized workout plan using the Gemini model.	Partial	No	Verify the Gemini API connection and generated plan.
3	Nutrition Guidance	Provide general meal and hydration suggestions aligned with the user's goal.	Pending	No	Demonstrate output and ensure guidance is presented as general information.
4	Goal-Based Personalization	Adapt the plan to the user's selected goal and fitness level.	Partial	No	Test at least two different user profiles.
5	Plan Display & Readability	Present the generated fitness plan in a clear, organized format.	Implemented	No	Check layout, headings, and readability in the live demo.
6	Safety & Responsible Guidance	Show a reminder to adapt activity to individual needs and seek professional advice when appropriate.	Pending	No	Confirm safety note appears with generated recommendations.

Feature Implementation Summary

Total Features Proposed	6
Total Features Implemented	1 (draft status; verify)
Total Features Demonstrated	0 marked Yes
Overall Implementation Rate (%)	To be confirmed after verification

Note: Update the status, demonstration column, remarks, and implementation rate after checking the working application. This draft does not independently verify which features are complete.
