

CODING & SOLUTION

Team Submission Document

Date	26.09.2026
Team ID	SWTID-2026-5226
Project Name	FitBuddy – AI Fitness Plan Generator._ Gemini models
Maximum Marks	5 Marks
Team Leader	Abisreeya S

Team Members

S.No	Team Member
1	Sahana K
2	Sripriya C
3	Rajakaleeshwari N

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Repository Link / URL	[Paste your GitHub / GitLab or hosted link here]
Programming Language(s)	[e.g., Python, JavaScript, Java]
Framework(s) Used	[e.g., Flask, React, Spring Boot]
Key Features Implemented	[Enter implemented features]
Pending / Incomplete Features	[Enter pending or incomplete features]
Setup / Run Instructions	[Enter instructions required to run the

	application]
--	--------------

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

AdditionalNote/Comment:

*Project successfully meets the objective of generating personalized fitness plans using AI.

*Code is clean, modular and follows Flask best practices with proper error handling for API failure.

*Application tested successfully and runs without any critical errors on localhost:5000.

*Future scope includes adding diet plan, video tutorials and user profile storage.
