

No. of Functional Features Included in the Solution

Project: Fitbuddy AI Fitness Plan Generator using Gemini Models

Date	30 September 2026
Team ID	Not provided
Maximum Marks	5 Marks

Project Team

Role	Name
Team Leader	Abisreeya S
Member	Sahana K
Member	Sripriya C
Member	Rajakaleeshwari N

Functional Features Overview

This document lists the planned functional features for the Fitbuddy AI Fitness Plan Generator. Statuses below are sample project-planning entries and should be updated to reflect actual implementation and testing.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks
1	User Profile & Goal Input	Collects user details, fitness level, goals, and preferences.	User Interface	In Progress	0.5
2	AI Workout Plan Generation	Uses Gemini models to generate a personalized workout plan from user inputs.	AI / API Integration	In Progress	1.0
3	Personalized Fitness Recommendations	Suggests exercises and routines aligned with the selected goal and fitness level.	Backend / Logic	In Progress	0.75
4	Diet & Hydration Guidance	Provides general meal and hydration suggestions to complement the fitness plan.	AI / Recommendation Module	Pending	0.5
5	Plan Display & Daily Schedule	Displays the generated plan in a clear daily or weekly schedule.	User Interface	In Progress	0.75
6	Plan Regeneration / Editing	Allows users to revise inputs and request an updated plan.	Backend / AI Integration	Pending	0.5
7	Progress Tracking	Lets users record completed workouts and monitor progress.	Database / Storage	Pending	0.5

8	Input Validation & Safe Guidance	Checks required inputs and reminds users to adapt activity to their needs and seek professional advice when appropriate.	Validation / Safety	In Progress	0.5
---	----------------------------------	--	---------------------	-------------	-----

Feature Summary

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	Not verified — update after implementation
Core / Must-Have Features	5 (profile input, AI plan generation, recommendations, plan display, validation)
Additional / Nice-to-Have Features	3 (diet guidance, plan editing/regeneration, progress tracking)
Features Tested & Verified	Not verified — update after testing

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Profile and goal input; plan display and daily schedule
2	Backend / Logic	2	Personalized recommendations; plan regeneration
3	Database / Storage	1	Progress records (planned)
4	API / Integration	1	Gemini model integration for plan generation
5	Security / Authentication	0 specified	Authentication is not specified in the current project details; consider adding it if accounts or personal data are stored.

Notes

This document is a draft based on the supplied functional-features template and the project name/team details. Feature descriptions and statuses are illustrative, not confirmation that the features have been built. Replace sample statuses, marks, and counts with the team's actual project progress before submission.
